We deploy a number of innovative models for problem solving and performance improvement to ensure that the solutions that we develop and implement meet the needs of our clients. Our solutions typically cover the following areas:

Strategy Development & Implementation

Learning Impact NG works with organizations to develop and implement organization-wide and departmental strategies using the combination of its proprietary Creative Thinking Strategy Development Tools and the critically acclaimed Balanced Score Card toolkit. We work with organizations through a disciplined process that starts from a rigorous organizational diagnostic to preparing an executing a strategic off-site/retreat, all the way to managing the implementation of the strategy. We use a bottom-up, top-down approach that ensures that all stakeholders are adequately engaged and that the strategy can be “owned” by all across the organization.

Performance & Process Improvement

Organizations need to review their systems for managing performance from time to time, especially to make the necessary transition from behaviour-based performance management systems to more results-based systems with clear accountabilities and goals. Learning Impact NG has developed a number of unique tools and protocols to help organizations make this transition and make improvements to their performance management systems. Forward-thinking organizations understand the strategic role that the Human Resources Management function should play as a driver and enabler of the organization’s strategy. To support such organizations, Learning Impact NG is available to build a new HR architecture for such organizations, enhance the capabilities of the Human Resources Professionals, and build the capabilities of Line Managers and leaders to run a more strategic human resources management framework and organization based on Dave Ulrich’s critically acclaimed Strategic HR Model and Capabilities.

In addition to supporting broad-based HR Transformation, Learning Impact NG is also available to work with organizations develop policies, frameworks and tools to enhance the following areas along the Employee Life Cycle:

- Competency Frameworks
- Strategic Resourcing
- On-Boarding & Induction
- Career Management
- Talent Management

Workplace Coaching & Mentoring

Learning Impact NG has worked with the Nigerian Deposit Insurance Corporation, Asset Management Company of Nigeria, Consolidated Breweries, Stanbic IBTC, Union Bank, Oando Plc and a host of others to design and implement Workplace Mentoring and Coaching Programs that align with their various strategic needs.
